

The truth about the jews

This book is for those who want to understand it all in one go. 1 to 100. Especially new Patriots.

Why are people saying Jews do this, Jews do that? Why is there unexplicable animosity for these people? Not all jews are bad, hear me out

Here it goes.

We (White Christians) have been at war with Judaism for over 3,300 years, which was very much exacerbated since the Roman Empire times when jews were treated like slaves.

They revolted, killed Jesus then waged war against White Christians. They have since been expelled from 109 countries for being traitors, exploiters and child abusers (just like Epstein, Weinstein and the elite today).

During the middle ages, they tried many times to infiltrate European societies and, being skilled in trade and banking, managed to get positions of power - mostly bank and trade.

Most notably the Rotschild family (due to whom we have financial bonds today) and other jews, have gotten rich by funding both sides of European Wars and Central Banks. Mainly they made countries with independent (state banking) institutions go at war with each other (Napoleonic Wars or UK-South Africa, WW2, for example).

Being outsiders, Jews always felt like they could only be safe if they weren't noticed and thus professed open borders, immigration and "equality" + lgbt, porn and cultural degeneration. This was to shift attention away from their power grab and turn the society against itself and God.

In 19th century, jewish Karl Marx drew up the (Marxist) Communist ideology for world domination. This was already in the Talmud, where jews say that all non jews are cattle and can be raped and killed. Marxism is nothing less than Worldwide International Communism or New World Order.

Then when the federal reserve bank founded in 1913, Jews got a full grip of the USA, after they already controlled much of Europe. During WW1 and after, jews wanted more and more power and funded / organized Communist revolutions in

Spain, Germany, Russia, Hungary, Italy and many other states.

They managed to kill the Russian King Nicolae II and then Holodomor happened, when in total they killed 60 million White Christians over the course of 20 years.

The most hated man in the world today, Adolf Hitler, wanted to put a stop to Jewish World domination. He drew up Haavara agreement to resettle them in Palestine (after they received the land through the Balfour declaration).

The Holocaust is a lie, which it is exactly why it is forbidden to discuss it by law in Europe. There were 3 million jews in Europe at the time. All camps were labour camps, not death camps. The jews who "died", died of Typhus. Zyklon B was an insecticide. Treblinka, Sobibor etc had ONE eye witness. A joke. The allies also bombed supply inroads which cause further starvation in the labor camps and in Germany overall.

The Jews dragged the USA in WW2 and made Whites kill each other so they could create Israel. Hitler made 20 peace offers and even sparred the British at Dunkirk. The Jewish communists and allies had no mercy and bombed civillian non combatants in Dresden, genocided and raped over 10 million Germans (watch Hellstorm documentary).

Jews won the war and here we are today. Since then, they introduced the civil rights act, promoted race mixing and immigration to forever wipe out the White Race. They also infiltrated our acamedia, legal systems and governments. We will be minority in every single one of our countries by 2040.

They also created all sorts of conspiracies, fake controlled oppositions and literally funded any sort of White infighting in order to keep the focus away from them and their plans (Trump, Biden, Alex Jones, Q, flat earth, lies about Hitler being jewish - literally anything).

White Children are 3% of world population and rapidly facing extinction. If this post raises doubts in your mind, watch Europa the last Battle and share it with a good faith people.
